

Dear Patients and Friends:

It is with mixed emotions that I have decided to turn over the watchful care of my patients to new owners, as of January 31, 2025. Unfortunately, after 25 years of serving our dental community, I am not able to continue the demand and pace of clinical practice anymore, due to progressing neuropathic concerns. I have taken great care to hand pick my successors to continue to care for your dental needs. Yes, your favorite hygienist, assistant and front office team will still be here! We are proud that in the world of high turnover and instability, we have retained our wonderful team.

I wish that I could have shared this in a personal conversation with each of you. The emotions that I have cannot be portrayed in a letter. I am grateful for the relationship I have built with you. I have watched many of your children grow up with mine. We have families with 4 generations of patients. I have cried with the passing of our loved ones, celebrated births, graduations, marriages, and other life events. It has been more than a job to me, and with a heavy heart, I must now pass the torch.

I would like to introduce Neeka A. Nasrolahi, DMD and Luke C. Allender, DMD. When I first met them, it was easy to see their passion and enthusiasm for dentistry. Their first concern has been for the patients and the team, and how we can make this a positive experience for all.

They are both energetic and excited about this opportunity. They are kind and compassionate people. They are eager to meet all of you and continue what we have started and become a part of your health care team. With their training and education, they will be equipped to handle more specialized dental needs. Having our amazing dental team here to help, and the addition of Dr. Allender and Dr. Neeka, I am confident that you will be in great hands. They will be my dentist as well.

I want to thank you for the confidence and trust you have given me. It's been an honor to be your dentist. I am looking forward to seeing you out in the community.

Sincerely,

Brian Alder, DDS
